

ARMAN RAJESHPRASAD TIWARI

Nagpur, Maharashtra | tiwariar279@gmail.com | [linkedin.com/in/tiwariar7](https://www.linkedin.com/in/tiwariar7) | github.com/tiwariar7 | +91 93736 10991

PROFILE

Computer Science Engineering student specializing in Data Science. Experienced in building AI-powered applications using Python, FastAPI, Flask, FAISS, and Google Gemini API. Strong foundations in Transformers, embeddings, prompt engineering, and vector search. Passionate about deploying production-ready AI solutions using open-source and proprietary LLMs.

EDUCATION

Shri Ramdeobaba College of Engineering and Management (RCOEM)

Nagpur, India

B.Tech in Computer Science Engineering (Data Science) CGPA: 8.63/10

Expected May 2027

- Coursework: Machine Learning, Natural Language Processing, Deep Learning, Database Management

EXPERIENCE & LEADERSHIP

Student Placement Coordinator

July 2025 – Present

Career Development & Placement Cell, RCOEM

Nagpur, India

- Coordinated multiple campus recruitment drives, analyzed technical job descriptions, and managed communication between recruiters and 1000+ students.
- Facilitated smooth interactions between corporate recruiters and student candidates, demonstrating strong stakeholder engagement and organizational skills.

AI/ML Virtual Internship

2024

Google for Developers

Remote

- Built predictive models using Python and Scikit-Learn with end-to-end ML workflows including data preprocessing, feature engineering, and model evaluation.

AWS Data Engineering Virtual Internship

2024

AWS

Remote

- Gained practical exposure to cloud-based data engineering workflows and infrastructure solutions.

PROJECTS

Semantic Hotel Search Platform | *Python, FastAPI, FAISS, NLP*

- Built AI-powered semantic search engine using vector embeddings and FAISS for efficient retrieval of hotel recommendations.
- Developed FastAPI REST APIs with hybrid search combining semantic retrieval and metadata filtering.
- Engineered data preprocessing and tokenization workflows for optimal embedding generation.

NewsLens II — AI News Aggregator | *Python, Flask, Gemini API, NLP*

- Integrated Google Gemini API for LLM-powered summarization, sentiment analysis, and topic classification.
- Designed prompt engineering workflows and built REST APIs for scalable inference and automated content processing.
- Created evaluation benchmarks to assess summarization accuracy and detect potential model hallucinations.

PlacementPrep AI | *React, Flask, Gemini API, Python*

- Developed AI-powered interview preparation platform using Google Gemini for mock technical interviews.
- Implemented intelligent evaluation workflows to generate personalized interview feedback and answer analysis.

ScholarMatch | *SQL, Recommendation Systems, UI Design*

- Built scholarship recommendation platform with SQL-backed filtering and ranking algorithms for underserved students.
- Collaborated within multidisciplinary team to deliver end-to-end production-ready application.

RESEARCH

Customer Segmentation using Hybrid HDBSCAN-FCM Clustering

- Researched hybrid clustering approaches combining HDBSCAN and Fuzzy C-Means for marketing analytics.
- Evaluated algorithms using Silhouette Score, Calinski-Harabasz Index, and Davies-Bouldin Index.

TECHNICAL SKILLS

Programming: Python, Java, SQL, JavaScript

Machine Learning: Scikit-Learn, NumPy, Pandas, PyTorch, NLP, Feature Engineering, Model Evaluation

Generative AI: LLMs, Prompt Engineering, Google Gemini API, Transformers, Embeddings, Tokenization, RAG

Backend & Tools: FastAPI, Flask, REST APIs, Git, Docker, Streamlit, FAISS, Vector Search

Core: System Architecture, API Design, Technical Communication, Stakeholder Engagement

CERTIFICATIONS & ACHIEVEMENTS

- Certifications:** Oracle Cloud Infrastructure Data Science Professional, IBM Data Science Professional Certificate
- Achievements:** Runner-Up (2nd Prize) at Web Reshape Hackathon (VNIT Nagpur), Active Open Source Contributor
